

## Team Barnyard

Alright, our game is Barnyard Explosion! It's a crazy battle to the death with barnyard animals. You will be able to punch, jump, shoot, and drop/pickup items. This game is meant to be played on Xbox 360 controllers, but there are rudimentary controls on a full QWERTY keyboard. Also currently we only have support for all 4 players only. Extra players can be ignored in the case of having less than 4 players. Player 1 has to navigate the Main Menu or use the mouse. Enjoy!
